NEW EARLY CALIFORNIA GIANTS

Our strain of the California Giant is from one to two weeks earlier than the California Giants raised in California. Owing to the fact that this comet aster has Beauty blood in it, it is the latest blooming comet aster grown. The California Giant is a coarser flower than the Oregon Giant. The petals of the Oregon Giant are finer cut and there are more petals to the flower. Having no Beauty blood in it, it is a midseason bloomer. As we are often asked the difference between the two we are making this explanation. Colors of California Giants are white, Peachblossom light blue, purple, rose. Ounce \$5.00, $\frac{1}{2}$ oz. \$2.50, $\frac{1}{4}$ oz. \$1.30, $\frac{1}{8}$ oz. 70c, trade packet 50c.

HEART OF FRANCE—Opens red at the beginning. The flowers are large and full to the center. A selected strain of rich glowing red. Plants are of a branching habit. Ounce \$3.00, ½ oz. \$1.55, ¼ oz. 80c, ⅛ oz. 45c, trade packet 25c.

OREGON GIANT COMET

The Oregon Giant is undoubtedly the finest of the Comet strain of Asters yet produced judging from the commercial grower's point of view. The immense fluffy flowers are most beautifully formed, averaging five to six inches in diameter and very full to the center. The form of the flower, together with the length of stem, places it at the head of asters for cutting. The flowers when cut keep longer in good condition than many Asters of this type. In bloom from mid-August through September. Colors white, shell pink, rose pink, light blue and purple. Ounce \$3.00, $\frac{1}{2}$ oz. \$1.55, $\frac{1}{4}$ oz. 80c, $\frac{1}{8}$ oz. 45c. Trade packet 25c.
